

## WHY WE TRUST GCPRO RESTORATION WITH OUR POLICYHOLDERS

**01** **Mitigation Specialists**

They do everything possible to restore losses with as little demolition and reconstruction as possible. This means the restoration costs less and you are returned to normal far faster, minimizing business interruption and conserving your policy limits.

**02** **Reducing Liability Concerns**

They do all restoration work to the Standard of Care and prove it with comprehensive documentation. You'll be able to relax knowing that your job was done correctly to reduce downstream liability risks and thwart sick building issues, real or imagined.

**03** **Protecting Your Property's Value**

Because we want to be sure that a loss doesn't affect your ability to sell your property or impact "lease-ability" they will provide a Certificate of Professional Restoration that demonstrates your loss was properly restored by a licensed, insured and certified professional.

# WHO'S THERE FOR YOU WHEN DISASTER STRIKES?

24-HOUR EMERGENCY SERVICE

**(847) 656-3322**

# WE'RE THERE FOR YOU TO HELP YOU MANAGE RISK!

### Will Your Agent Be There When You Have a Claim?

We feel that your agent should be a part of your risk management team. But when you have a loss will they stand with you or send you off to some distant call center to have your claim handled by claims people that know nothing about you and your business?

We think that an important part of our relationship with our clients is that we are there for them when they need us the most, which is when they suffer the chaos of a property loss. We feel that giving a valued client an 800 number and a "good luck" is simply unacceptable.

Instead, we go the extra mile to make sure that you don't have to go through the ordeal of property damage alone. That's why we have a special relationship with GCPRO Restoration to make sure you get the highest levels of quality and service.

**And, they perform some very special extra services for you for free because you are one of our clients!**

# THE IMPORTANCE OF DISASTER PLANNING

When it comes to disaster planning for commercial properties it's not a matter of "if" disaster will strike, it's a matter of "when". Having a plan in place has many benefits:

- Prior knowledge about your property allows faster response and faster completion so you are back to normal as quickly as possible.
- Faster response reduces severity and lowers costs, conserving policy limits.
- Having a plan means you're less likely to face reputation-damaging business interruption.

Not having a plan in place could mean increased severity of damage, higher costs, completion delays, business interruption, secondary damage and unhappy occupants or lost tenants.

> **Because you are our client, GCPRO Restoration will provide a customized Property Program for your properties—FREE!**

# GCPRO RESTORATION, IS THERE BEFORE, DURING & AFTER A LOSS

**Before the loss** they will be there for you by creating a comprehensive Emergency Response Program (ERP) for your properties. This includes detailed disaster planning information as well as what to do, who to call and what to expect during a loss caused by water, sewer, fire or storm.

**During the loss** they will be there for you to:

- Get the job done faster and control costs.
- Keep you completely "in the loop" by providing near-real time documentation and giving you access to their online job file.
- Manage and simplify the process. They will manage the minutia so you don't have to!
- Handle communication with you, adjusters and all involved parties, intercepting and handling complaints for you!
- Manage liability and prevent a Public Relations nightmare.

**After the loss** they will be there for you with a Certificate of Professional Restoration demonstrating that the loss was restored to the proper Standard of Care. This will protect your property's value and thwart sick building claims (real or imagined).

### Priority Response for Our Clients

In the event of an area-wide weather event or disaster you will receive priority service as one of our clients that is part of the Emergency Response Program!
