HOW THE AGENCY SUPPORT PROGRAM (ASP) HELPS INCREASE POLICYHOLDER RETENTION

For most insurance agents, policyholder retention is a crucial indicator of business success. Studies indicate that, for agents, attracting a new customer can cost seven to nine times more than retaining an existing one.

Here are some important data points to consider:

- The average retention rate in the industry is 84%.
- Top agencies retention rates are at 93%-95%.
- Reducing customer defections by as little as 2% per year is equivalent to cutting costs by more than 10%.
- A 5% improvement in retention for 5 years will double your agency's profit!
- 65% of clients who leave an agency never speak to an agent before they leave.
- 80% of people who spoke with an agent this year stayed.
- Only 13% of your book is truly loyal.
- 28% of people start shopping due to perceived poor service.
- One of the biggest reasons clients leave an agency is a perceived attitude of indifference. They don't feel the love.
- Customer retention, not sales volume, market share, or being a low-cost producer, is the only factor that correlates with long-term profitability.

HOW THE AGENCY SUPPORT PROGRAM HELPS INCREASE POLICYHOLDER RETENTION

When you become a part of our Agency Support Program (ASP) you have decided to deliver one of the most impactful services that your policyholders value—that you will be there for them when they need you most, which is when they have a claim!

By partnering with our restoration company, you will be adding a powerful differentiator to your value proposition that will help you close new business as well as add value at renewal, giving existing clients powerful, exclusive reasons to stay with you other than the lowest price. These reasons include:

- Unlike other agencies that send insureds to a distant claim center to speak with someone that doesn't know or care about them or their home and community, you won't abandon them when they need you the most, which is during a loss.
- Because of your strategic relationship with our restoration company, your insureds will receive exceptional levels of "Above and Beyond" service far beyond normal expectations. This service is designed to create Cheerleaders for your agency. Cheerleaders act as unpaid salespeople, helping to not only directly grow your agency by word-of-mouth referrals but also by enhancing your brand reputation in the marketplace. The power of a few Cheerleaders cannot be overestimated. Most businesses, including your own were likely built on a few Cheerleaders in the beginning.

They will receive priority service during an area-wide weather emergency or disaster when other folks might have to wait weeks!

- We will provide your policyholders with a free, enhanced, high-tech inspection, including when coverage is in question. This allows information to be collected to help you and your insured make informed decisions about filing a claim. By not filing claims for uncovered losses, insureds are not rated or cancelled. In addition, a special process is used to make sure you get "extra credit" for providing this enhanced inspection at no cost.
- We have specific touch points where we enhance your image with your policyholders, taking advantage of the power of an independent third-party endorsement.
- We provide what we call Mitigation Focused, Full-Service restoration, which gets the job done faster, reduces costs, preserves policy limits and makes for happier policyholders. And happier policyholders stay with you and become your newest Cheerleaders.
- We deliver to your policyholders specific documentation after the loss which protects the value of their home or business and reassures them about the health and safety of their family/occupants. And we make sure you get the credit for this!
- Because everyone knows that the biggest reason claims "go south" is poor communication, we provide the highest levels of what we call "always informed" communication with the insured and your agency. This also allows you to "touch" your client at the optimal times during the loss to magnify the customer service impact. There is no better time to touch your insureds than during a loss!
- We collect comprehensive documentation in near-real time to protect everyone from downstream liability and provide a certificate that the loss was restored to the proper Standard of Care.
- We directly ask for additional coverage opportunities and referrals for you. The more different types of coverage a policyholder has with you, the more likely you will retain their business.
- For commercial clients we offer our Property Guardian Program. This is a powerful value added risk management tool offered to the agency's commercial clients at no charge as long as the insured remains your client. This gives commercial clients important reasons to remain with you based on overall value rather than the lowest price. This added value makes it more difficult for competitors looking to poach your clients solely based on coverage gaps and lowering cost.

Not only do you receive all these benefits at no charge when you become part of the ASP, we give you beautiful print and digital tools to tell your insureds all about it—also at no charge.

The Agency Support Program can add powerful marketing and sales tools to your selling efforts at no cost to you! To learn about all the details of the ASP, contact:
